

JOHN KENT EVANGELISTA, LSSWB

Senior Software Developer | Team Lead | Digital Transformation

Zamboanga City, Philippines | dz1an.github.io | Open to: On-site · Hybrid · Remote

PROFESSIONAL SUMMARY

Results-driven Senior Software Developer and team lead with 1+ years of professional experience building civic tech platforms, offline-first POS systems, AI-integrated analytics tools, and business directory solutions for the Philippine market. Led multi-disciplinary teams of developers, UI/UX designers, and interns across concurrent projects. National Winner at the 2025 DOLE Productivity Olympics. Proficient in Python, Flutter/Dart, React.js, Supabase, and AI-assisted development workflows.

WORK EXPERIENCE

Senior Software Developer & Team Lead

Nexzys Intelligence OPC / VINTAZK Outsourcing | 2024 – Present | Zamboanga City, Philippines

- Lead a cross-functional team of junior developers, a UI/UX designer, and OJT interns across 4+ concurrent client and in-house projects.
- Architected and shipped CalarianConnect, a civic digital system for Barangay Calarian with a mobile app, web admin panel, kiosk terminal, and Supabase backend.
- Built Inventa POS, an offline-first Flutter/Dart desktop POS for a local coffee chain with SQLite local storage, Supabase cloud sync, OpenCV webcam clock-in, and on-device predictive AI using scikit-learn.
- Developed Fluent, an AI-powered digital advertising analytics platform featuring budget optimization, install quality scoring, anomaly detection, and ad creative generation (Supabase + React + Python stack).
- Led ZamGo business directory to national recognition: managed a 636-business dataset, built analytics dashboards, and shipped v1.0 User and Business Owner Manuals.
- Drove AWS Certified Generative AI Developer – Professional (AIP-C01) certification pursuit; first in team to certify.
- Evaluated and deployed AI developer tooling (n8n, Claude Code, Cursor) to accelerate team productivity.

KEY PROJECTS

ZamGo — Business Directory Platform

VINTAZK Outsourcing | 2024 – 2025 | Zamboanga City

- Managed and enriched a 636-business dataset: description generation, duplicate detection, SQL foreign key fixes, and Google Maps branch verification.
- Built analytics dashboard (Excel) and monetization strategy; premium listings and verified badges identified as top revenue path.
- National Winner — 2025 Productivity Olympics, Service Micro Category (DOLE & RTWPB).

CalarianConnect — Civic Digital System

Nexzys Intelligence OPC | 2025 | Barangay Calarian, Zamboanga City

- Designed 4-platform architecture: Flutter mobile app, React web admin, kiosk terminal, and Supabase backend.
- Supervised 4 interns across dedicated workstreams (mobile, web admin, kiosk, backend).
- Simplified kiosk scope to webcam-only refactoring pending RealSense hardware delivery.

Inventa POS — Offline-First Desktop POS

Nexzys Intelligence OPC | 2025 | Zamboanga City

- Built with Flutter/Dart for Windows; evolved through stack iterations (CustomTkinter → Flet → Flutter final).
- Integrated SQLite for offline storage, Supabase cloud sync, OpenCV for biometric clock-in, and scikit-learn for on-device predictive demand analytics.
- Delivered feature spec documents, OJT training plans, and project scaffolding.

Fluent — AI Digital Advertising Analytics

Nexzys Intelligence OPC (Client Project) | 2025 | Remote

- Led AI feature design: budget optimization, install quality scoring, anomaly detection, and ad creative generation.
- Confirmed Supabase + React + Python over AWS SageMaker after cost-benefit stack analysis.
- Produced team briefing documents and coordinated Sharukh and Ivan on delivery.

EDUCATION

Bachelor of Science in Computer Science

Western Mindanao State University | 2020 – 2024 | Zamboanga City, Philippines

- Thesis: SmartScore — Automated Exam System with Computer Vision-based Checking for Multiple Choice Exams.

LICENSES & CERTIFICATIONS

Lean Six Sigma White Belt (LSSWB) — Six Sigma PH | Issued Oct 2025 | Credential ID: MEM-8T-BE8w7-u5Oz

AWS Certified Generative AI Developer – Professional (AIP-C01) — In Progress (2026)

TECHNICAL SKILLS

Languages & Frameworks: Python, Dart/Flutter, JavaScript, React.js, Django, HTML/CSS

Databases & Backend: Supabase (PostgreSQL), SQLite, Row-Level Security, Triggers & Functions

AI & Machine Learning: scikit-learn, OpenCV, Claude Code, Amazon Bedrock, n8n automation

Tools & Platforms: Cursor, Git/GitHub, Selenium WebDriver, LibreOffice, Figma

Project Management: Intern supervision, sprint planning, multi-project delivery, documentation, OJT program design

HONORS & AWARDS

National Winner — Service Micro Category

10th Productivity Olympics (2025) | DOLE & RTWPB | VINTAZK Outsourcing team | Recognized for innovative outsourcing and productivity solutions at national scale.
